PROFESSIONAL EXPERIENCE

Frontend Engineer   04/2022 – present
Zealight innovations lab   Lagos, Nigeria
- Developing Scalable UIs using ReactJs Framework
- Translating designs and wireframes into high-quality codes
- Consuming Endpoints (APIs) and integrating them on the User-end
- Fixing of user-end related Bugs
- Deploying codes and performing series of Git operations

Frontend Developer   08/2021 – present
Skillup Africa   Lagos, Nigeria
- Using Html,Css ,javascript and ReactJs to develop responsive websites and web apps.
- Developing and maintaining the User interface.
- Implementing designs on mobile websites.
- Fixing Bugs and testing for Usability.

Frontend Engineer (intern)   04/2022 – 09/2022
T40 Technologies (Remote)
- I implemented a claim cashback section on one of the company's website (intercity.ng), Connected the endpoints for this to function as expected and deployed my codes on bitbucket where it was merged after testing it on the production Endpoint Url,
   This allows users to Get 1% cashback on all rides booked & parcels sent

- I fixed the bugs of the bookings section not displaying the data from the endpoint and also updated the UI after the bugs were fixed .
- I worked on making the wallet balance update immediately after every transaction without having to refresh the website.
- I worked on Fixing bugs on the Blog website and connecting Endpoints from backend and also updated the UI
- I deployed codes on Bitbuckets and performed series of Git operations
- Worked on Responsiveness of pages on the Operator dashboard and added Pagination and filters as instructed.
- Consumed several endpoints and implemented them on the User-end and also developed/Updated UIs.
